**DETAILED ACTION**

1. This is responsive to the amendment filed 3/24/06. Claims 1-17 are pending.
2. The IDS filed 3/24/06 has been considered as indicated. Those documents which have been previously cited have been crossed out.
3. Claims 2-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. As per claim 2, “the temperature sensor in the electronic control and evaluation unit” lacks antecedence. Note claim 14 establishes the location of the temperature sensor in the electronic control and evaluation unit.

B. As per claims 3 and 4, “the matching means” lacks antecedence. Note claim 1 has been amended to delete reference to means for matching.

C. As per claim 8, “the filtered output signal of the temperature sensor” lacks antecedence. Claim 4 provides a low-pass filter but does not specify that the output of the temperature sensor is filtered.

D. All claims depending from a rejected base claim are also rejected as containing the same deficiencies.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3661

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
